transcosmos research and development, Inc.

transcosmos begins the operations of “transcosmos research and development”

Conducts R&D and offers various services that aim to boost operations productivity, reduce costs and maximize profits with the power of technology

transcosmos inc. (Headquarters: Tokyo, Japan; President and COO: Masataka Okuda) is delighted to announce that the company launched operations of “transcosmos research and development, Inc.” on June 20, 2018.

On May 25, 2018, DECTech Tokyo Inc. (Headquarters: Tokyo, Japan; President: Shohei Shimoda), a company established on April 27, 2017, renamed itself to transcosmos research and development and began operations on June 20, 2018. DECTech Tokyo has been developing chat-bot, one of transcosmos’s services, and ad platform whilst building DMP. Now, transcosmos research and development will conduct research and development and offer services that aim to boost operations productivity reduce costs and maximize profits with the power of technology. At the same time, the company will beef-up its sales scheme in order to drive development and implementation of their proprietary solutions.

<transcosmos research and development Corporate Concepts>

- Create POC (Proof Of Concept) for technologies/businesses that will become next-gen pillars of transcosmos
- Build quality management and project management schemes for R&D
- Carry out pre-sales activities for “DECAds”, its proprietary integrated chat platform
- Research, develop, and operate new technologies that adapt to the market

From transcosmos, Kiyoshi Shiraishi, Director, Corporate Executive Officer & CTO and Hiroshi Kaizuka, Corporate Executive Officer joined the company as Directors. Welcoming these new Directors, transcosmos research and development will not only continue its own R&D but also closely collaborate with transcosmos’s Technology Division in order to strengthen the technological capabilities of the whole transcosmos group, whilst developing new technologies on platforms that are open to many users.
