

# Press Release

August 28, 2020  
transcosmos inc.

**transcosmos receives double recognition at the Experience Acquia Awards;  
“The largest number opportunities in the first half year Award” &  
“The largest number of certified people Award”**

**Recognized as the outstanding partner among Acquia’s “Drupal” development partners in Japan**

transcosmos inc. (Headquarters: Tokyo, Japan; President & COO: Masataka Okuda) is proud to announce that the company has received double recognition, namely, “The largest number opportunities in the first half of the year Award,” and “The largest number of certified people Award,” at the Experience Acquia Awards session in the “Experience Acquia in Japan” held on August 27, 2020, by the Japanese branch of Acquia Inc.

(Headquarters: Boston, Massachusetts, United States; CEO: Michael Sullivan; Acquia). transcosmos is the only company among Acquia partners in Japan who won the awards under two categories.

The two awards, “The largest number opportunities in the first half of the year Award” under the Sales category, and “The largest number of certified people Award” under the Development category, are the testament to transcosmos’s success in being recognized as the Japanese partner who is most well-versed in “Drupal,” an open-source content management software (CMS) delivered across the globe, and who has contributed the most to Acquia’s sales and marketing activities.

In April, 2020 transcosmos became the No.1 in Japan in terms of number of certified employees of the Acquia Certification Program<sup>\*1</sup>. Since then, the company has been actively promoting and implementing “DEC CMS,” its proprietary SaaS CMS that deploys “Acquia Open Digital Experience Platform,” a platform built around Drupal. Moreover, its team of Drupal developers who are certified by the Acquia Certification Program have been developing new proprietary features, thereby establishing its competence in a competitive marketplace, ultimately making transcosmos stand out from the crowd. Recognizing the significance of the awards, transcosmos will continue to help clients across a variety of industries implement and operate DEC CMS, building on its expertise in Drupal and experience in implementing it.

Chris Gibbs, General Manager of Asia Pacific Region, Acquia, said, “transcosmos has led a number of strategic projects for our customers in Japan. transcosmos has helped accelerate Acquia’s growth in the Japanese market with its technologically advanced DEC CMS Platform. Together, we will continue to deliver successful digital transformation programs for Japanese companies. We look forward to seeing many more Japanese companies deliver a superior digital experience to their customers”

\*1 The Acquia Certification Program is a series of certification exams for “Drupal,” an open-source content management software delivered across the globe.
