transcosmos Group GHG emissions reductions targets approved by the SBTi

Promotes GHG emissions reductions to help achieve the Paris Agreement goals

transcosmos is proud to announce that its Group's greenhouse gas (GHG) emissions reductions targets have been approved by the Science Based Targets initiative (SBTi) *.

transcosmos Group's GHG emissions reductions targets approved by the SBTi are as follows;

- Scope 1 and 2: Reduce absolute emissions 42% by FY2030 from a FY2023 base year.
- Scope 3: 85% of its suppliers by emissions covering purchased goods and services and from upstream transportation and distribution will have science-based targets by FY2029.

* The Science Based Targets initiative (SBTi): The SBTi was formed as a collaboration between CDP, the United Nations Global Compact, the World Resources Institute (WRI), and the World Wide Fund for Nature (WWF). The SBTi provides standards, tools and guidance which allow companies to set science-based GHG emissions reductions targets in alignment with the goals of the Paris Agreement which pursues efforts to limit global warming to 1.5 degrees Celsius above pre-industrial levels.
